of the stock market to-day was reflective of the determination to meet the situation after the election from the greatest possible vantage points. Prices were quietly and persistently lifted during the session, some of the loading stocks selling at the high level for the year and the average level of the active list coming to the election period not far below that.

The Union Pacific September sarmings was made the nominal reason for the recovery of that stock to the high ext price of the year. Forther remots coming to hand of railroad earnings for September showed gain in ross earnings by the Western graid carriers. The Pennsylvania and New York Centred statements for September, given out to-day, showed heavy decilines in gross earnings and the cut in operating cost sufficient only partly to offset this loss. The same thing was apparent with the onion trunk time, Eric. Norfolk and Western and Chesapeake and Ohlo being amongst those represented to-day. Money on call held at the firmer rates established ast week in commetton with the November settlements. The groging issue of \$50,000,000 of Panama Canal bonds, the proveeds of which will be used to reimburse the Treasury for expenditures already made on that work. Copper rose again at the local metal exchange. A stock market holiday abroad subtracted something from the day's dealings.

Bonds were irregular. Total alles, bonds were unchanged on call. Total sales to-day, \$46,300 shares.
